LAB RECORD

2026

Experiment -1

AIM: To create an AWS free tier account to provision the resources.

Description:

Amazon Web Services (AWS) is a cloud platform that provides services like storage, computing power and databases through the internet.

AWS Free Tier allows new users to try different cloud services within certain free usage limits. It helps us learn how to create and manage cloud resources without paying for basic usage within those limits.

Steps:

Open the AWS website: https://aws.amazon.com/.

Click on Create an AWS Account.

Enter your email address, password and account name.

Provide the required contact and payment details.

Complete the phone verification process.

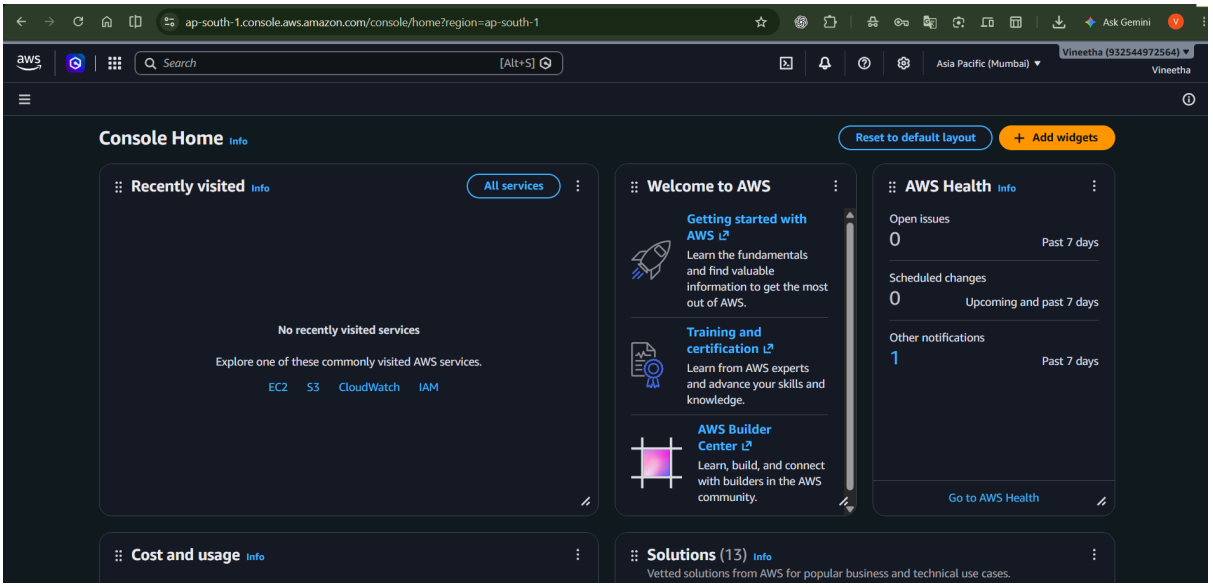

Select the Basic Support plan.

Sign in to the AWS Management Console.

Explore the available AWS services.

Check the Free Tier usage limits before creating any resources.

Output:

ap-south-1.console.aws.amazon.com/console/home?region=ap-south-1
