Experiment -1 (Skill)

AIM: Create an IAM user with programmatic access only, download the access key and secret key, and document the steps with screenshots.Then set up a billing alert for the account so that an email is received when the Free Tier limit is about to be crossed.

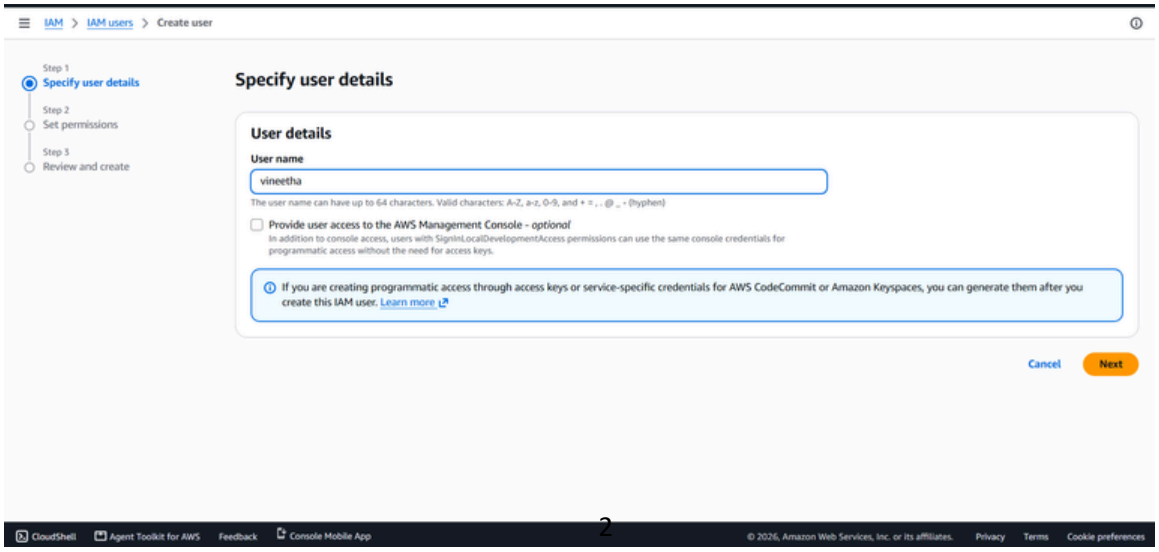

Description:

Create an AWS IAM user with programmatic access keys for development work, and set up a monthly spending threshold in AWS Budgets to monitor costs and send alerts if the budget is exceeded.

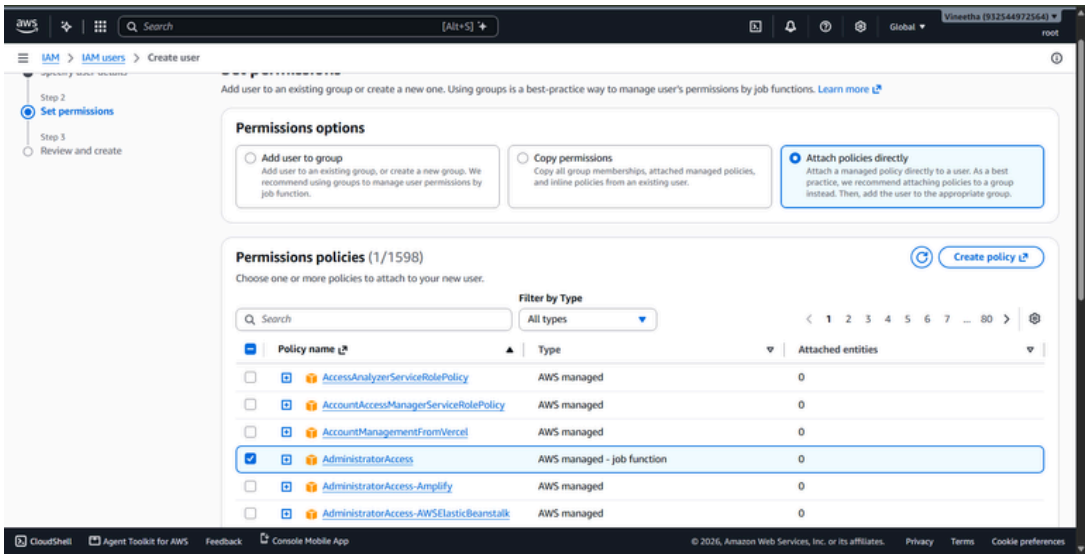

Steps: 1. In the side menu, click on IAM user

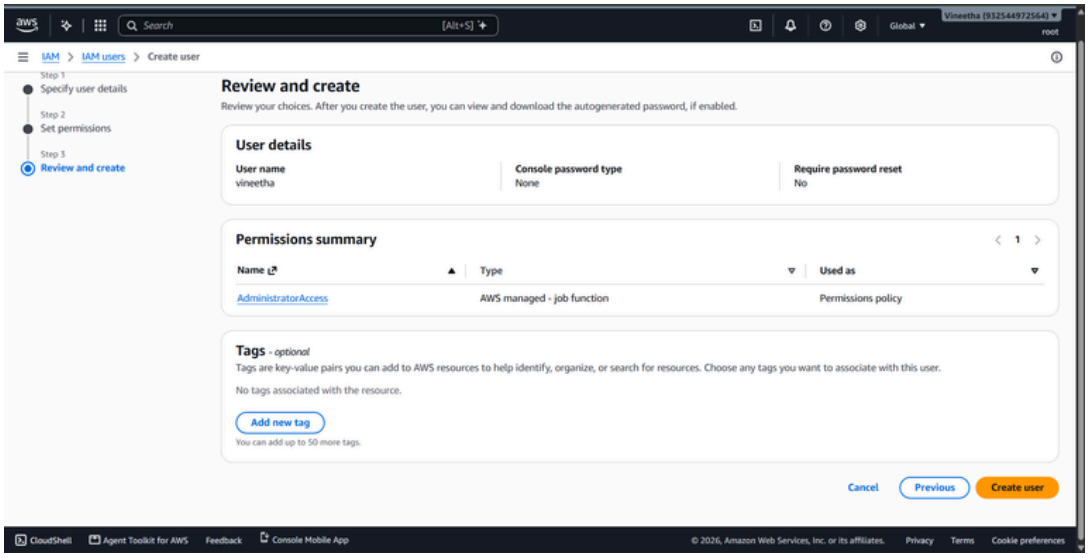

2. Create a username

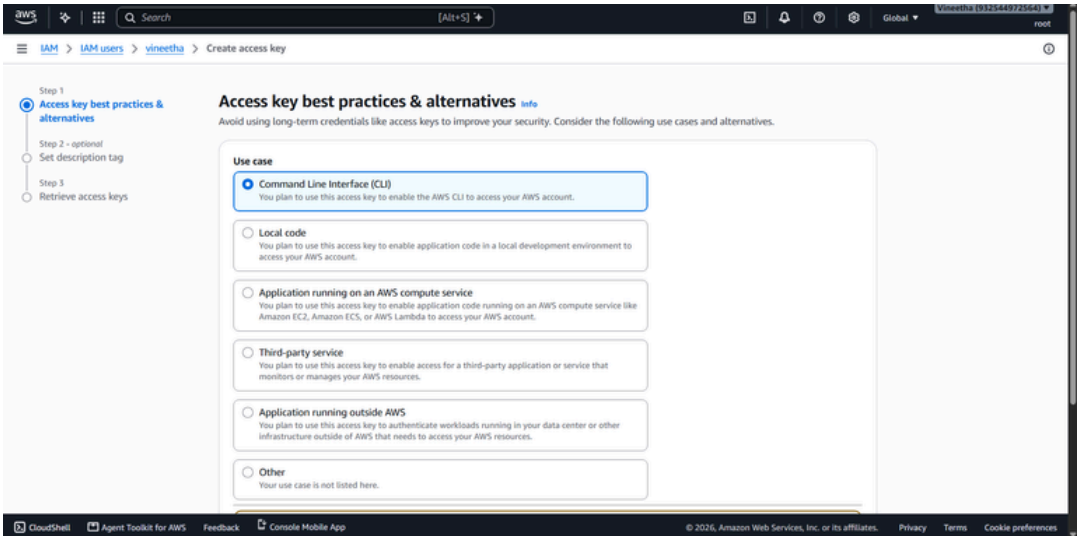

3. Grant administrator access

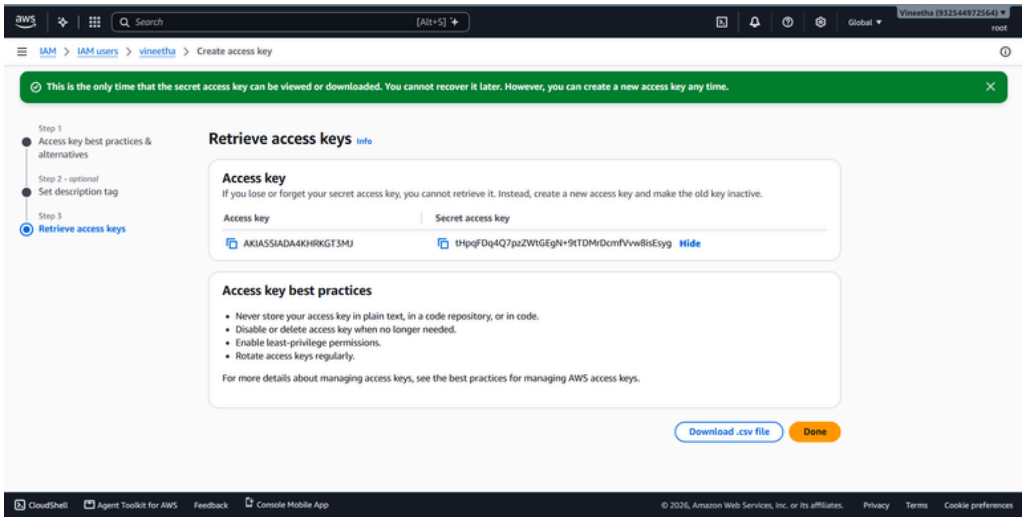

4. Create user

5. Create CLI access key

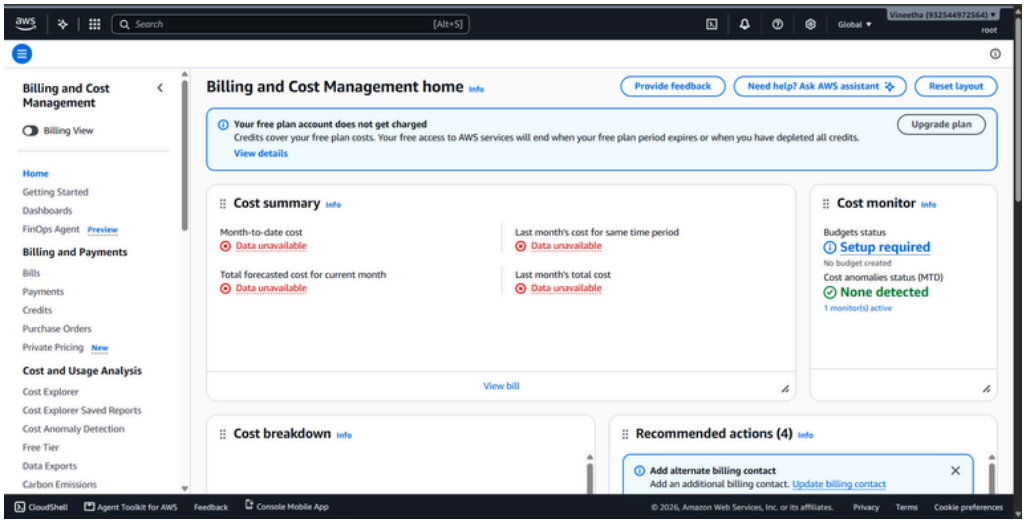

6. Download the csv file

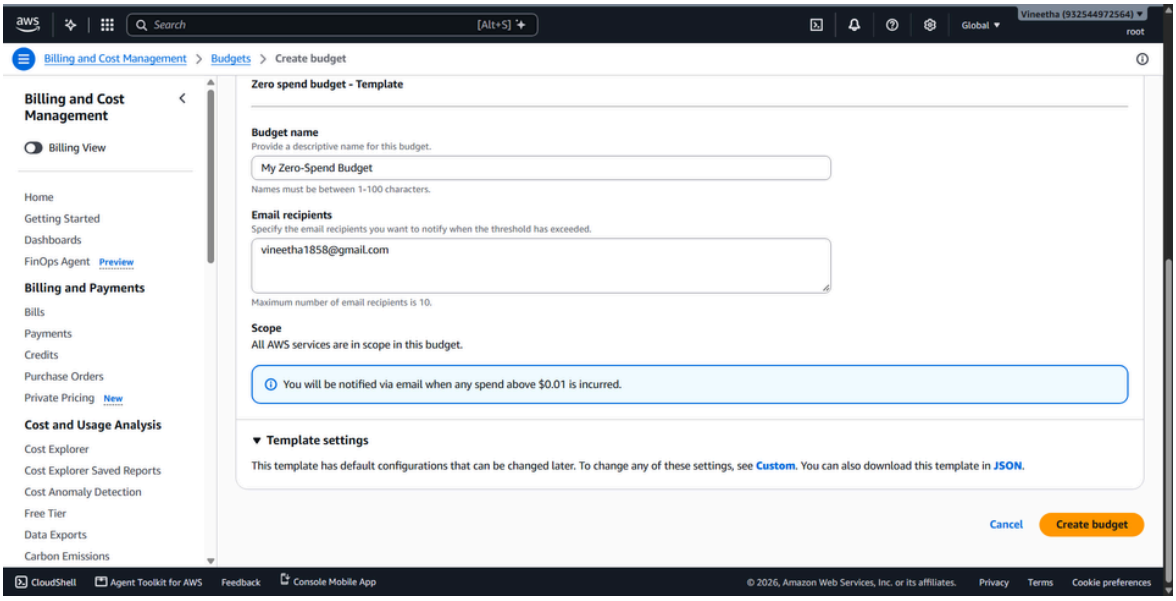

Billing and cost management

1. Click on setup required

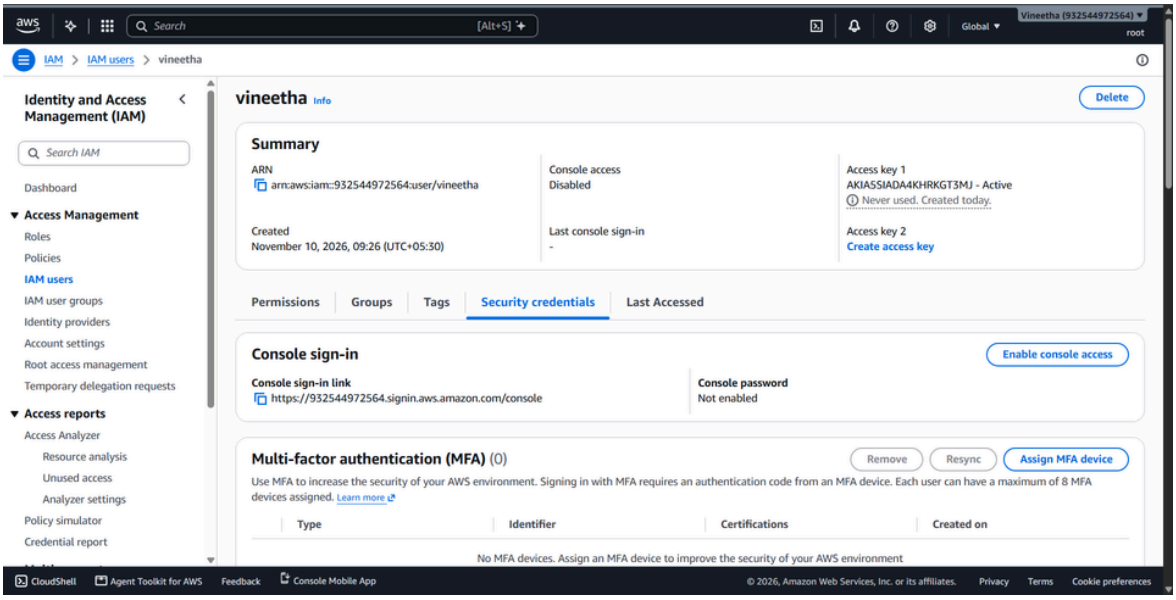

2. Add a email and click on create budget

Output:

User with the programmer access key is created

Budget is created
